Introduction 1

### Part I Helping Children Learn Mathematics

Thinking in Units 9

Constructing Ten as an Abstract Unit 16

Thinking Strategies 20

Self-generated Algorithms 21

Examples of Children's Thinking 22

The Basic Facts Issue 25

Manipulatives 27

Negotiating Effective Learning Environments  
in Mathematics Classrooms 29

Class Openers 36

Imagery and Mathematics Learning 45

Problem Solving 49

Multiplicative Reasoning 59

### Part II Pupil Activities

Dot Patterns 64

Ten Frames 77

Balances 107

Hundreds Boards 127

Math Squares 139

Two Ways 153

References 167

Appendix A Problem Sets 171

Appendix B Mathematics Games 187

Quick Dot 190

Dot Pattern Cards 192

Dot Pattern Match 201

Ten Frame Match 207

Match Ten 213

Combo-Ten 219
